MAINTENANCE AND OUTAGES

A MAXITOO GROUP COMPANY

Certainty in Safety – Certainty in Quality – Certainty in Value

MAXITOOL MINING THE SMART SOLUTION

Introduction

Maxitool was founded in 2007 by a number of key personnel who have extensive experience in providing services to the resources sector particularly managed services, maintenance and outages on complex mineral processing plants.

We pride ourselves on being a diverse maintenance and repair specialist providing first-class services internationally and throughout Australia and have an uncompromising commitment to excellence in every area of operation which underpins how we do business and continues to help us grow into a respected service provider.

Safety Culture

The safety and well-being of all personnel associated with Maxitool forms the most important of the 3 pillars of our Mission and is critical to our business.

“Safe Work” is a culture promoted by all at Maxitool and is supported by robust systems and processes that have been tailored to the type of work we do. This approach has enabled us to achieve an excellent safety record in what can be considered a high risk environment.

Continuous Improvement

Maxitool embraces a “continuous improvement culture” based on Kaizen ideals, supported by a structured system and process to relentlessly pursue improvement in productivity and operational excellence, in order to continue to be successful and remain competitive. We at Maxitool share these ideals and look forward to partnering with like-minded clients.

SPECIALIST SERVICES

- Mill Relines
- Crusher Relines
- Project Management

- ◆ MMJV—Hidden Valley (Papua New Guinea)
- ◆ Newcrest—Lihir, (Papua New Guinea) & Cadia (NSW)
- ◆ PT Newmont Nusa Tenggara—Batu Hijau (Indonesia)

MAXITool MINING MAINTENANCE SOLUTION

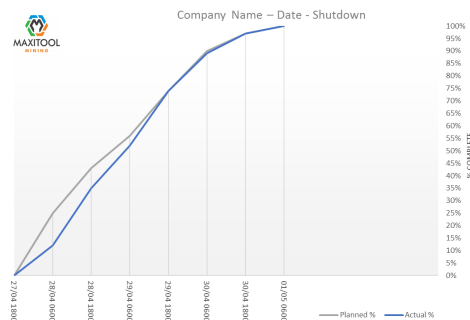

Crushers and Feeders

Maxitool Mining have an established 'Crusher Maintenance Division' managed by highly experienced and competent personnel. We regularly carry out on and offsite overhauls, repairs and refurbishment of crushers, components and associated equipment including apron feeders, chutes, etc. We also conduct scheduled maintenance and rebuilds on gyratory, cone and jaw crushers.

Team Work

Successful outcomes are the result of collective effort. Whether it be operational issues, conflicting work or required design changes, we endeavour to work with all stakeholders, including the plant owner and other maintenance providers to deliver an optimal outcome.

Planning and Reporting

We are a value-adding service provider because we partner with our clients in the management of critical path tasks and offer:

- ◆ Detailed Project Planning
- ◆ Monitoring and Supervision
- ◆ Safe Quality Execution
- ◆ Post Shutdown Evaluations

MAXITool MINING COMPLETE SOLUTIONS

Mill Relining

We have an international reputation for expediency, innovation and safety thanks to our continuous push to minimise relining incurred downtime. Our teams are held in high regard throughout the industry due to the unrivalled skill of our core workforce and our long-standing disciplined and systematic focus on reducing mill downtime.

Equipment Manufacture and Engineering Services
